COLLEGE COMMENCEMENTS.

ST. LAWRENCE UNIVERSITY. COMMENCEMENT WEEK AT CANTON - PRESIDENT GAINES'S BACCALAUREATE AND OTHER EXER-

CISES-BENEFACTIONS TO THE COLLEGE. CANTON, N. Y., June 28 .- Beside being one of the principal literary institutions in Northern Newyork, this University acquires no inconsiderable importance as the object of the special care of the 150 Uni versalist Churches of the State, A theological school the oldest in the denomination, a law school, and a col The ettizens of Northern New-York have shown a peculiar interest in the college from its foundation in 1858, and as a consequence the strong effort made the past Winter to remove it to a more central point, as Utlea, failed. Local feeling was aroused at the prospect of losing an object of so much interest and pride, and it was discovered that "insuperable legal obstacles" would prevent its departure from Canton. One result of the agitation has been a fresh manifestation of regard for the University by citizens in that section, which takes the form of beral bequests to its funds. It will come into posses sion of about \$100,000 very soon, half of which was the mmediate fruit of the proposal to remove it. With this nerease of its means of usefulness, it receives, also, a valuable accession in the person of the new President, the Rev. A. G. Gaines, an experienced educator. President Gaines's Baccalaureate sermon was given on Sunday morning June 22. It was a vigorous and discriminsting discourse.

A mere inventory of the week's exercises will show that the popular notion of the importance of Commence ent at Canton has some foundation in fact. Following the President's Baccalaureate Sunday morning, was the annual sermon of the President of the Theological School, the Rev. E. Fisher, D. D., delivered Sunday evening. Toesday afternoon the Board of Trustees de iberated over the welfare of the institution, and Tuesday evening Dr. G. T. Fianders of Lowell, Mass., gave the annual address before the Eromathean Society. Wedesday forenoon was devoted to the Commencement excises of the College of Letters and Science. In the afternoon of the same day the alumni dinner took clace, with the usual accompaniment of dry toast and icy speeches, and in the evening the Rev. L. M. Atwood of the Christian Leader, New-York, delivered the ad orning came the "Day K. Lee Prize Essay," read by a author, John Hilton, and the alumni address before the Association of Alumni of the Theological School, which was given by the Rev. A. B. Hervey of Troy. the afternoon the graduating exercises of the Theological school took place, and in the evening the address to the graduates of this department was given by Dr. Miner, President of Tufts College, Boston.

SYRACUSE UNIVERSITY.

EXERCISES OF COMMENCEMENT WEEK-A COLLEGE OF FINE ARTS ESTABLISHED, TO OPEN IN SEP-

SYRACUSE, N. Y., June 26 .- Moses Coit Tyler. on his address before the corporation of the Syracuse University, said, "Syracuse is likely to become as celebrated in the future for 'Attie Salt' as hitherto for he genuine bagged and barroled article." This fame will be achieved, if achieved at all, through the influoce of its rising, growing University, whose second Commencement is just finished. It is not so well known us it should be what earnest and successful efforts have been made by the trustees and friends of this institution. As President Brown of Hamilton College re sarked on the occasion of the inauguration of Chancellor Winchell, "I had heard of your ef forts to found a College, but what was my urprise to find all of the machinery of a great institution working as beautifully as though it vere a thousand years old." The anniversary exercises emmenced on Sunday, the 22d, at 3 p. m., in the First M. E. Church, by the able baccalaureate address of hanceller Winchell on "Reasons for the Faith." the evening the Rev. Mr. Bidwell, A. M., of Worcester, Mass., preached before the Society of Religious Inquiry a the First Presbyteriau Church. Monday was class tay, an occasion usually filled with fun and frolic; but he first class day of Syracuse University was happily iversified with the grave and gay. The graduating hat they had placed upon the grounds, and planted the customary by, beside marking their happy recognition of the incoming classes by the presentation of the mush and milk bowl, the shears for clipping the Freshman, the traditional peny, &c., &c. In the evening was the electromary contest, in College Hall. On Tuesday evening, in the Flymouth Church, Prof. Moses Cent Tyler gave a pleasing and instructive address on "The Early Colleges and College Builders of America." The Alumni held their literary exercises on Wodnesday evening in the college hall, which consisted of an address by the Rev. John Alabaster of Elmira, N.Y., and a poem by Mrs. Mary Green Wood. After this, Chancellor Winchell gave his reception in the pariers of the "Hall of Languages." To-day has been held the second Commencement in Wieting Opera House, Perhaps the gem of the occasion was the master's oration on "Religion and Law," by John S. Morgan of Rachester, N.Y. The trustees initiated several advanced movements, the principal of which was "The Rochester, N. The trustees infinited several as vanced movements, the principal of which was "The College of Fine Arts," under the superintendence of Prof. S. F. Comfort as Dean of the Faculty. Prof. Comfort is well known as an ardent and enthusiastic worker in the department of asthetic culture. A regular four gears' course has been adopted, a faculty secured, and this first regular College of Fine Arts in America will be opened Sept. 16, 1873.

WABASH COLLEGE.

ELOCUTION CONTEST-THE MILITARY PROFESSOR-SHIP-MEETINGS AND ORATIONS-THE COMMENCE-MENT PROGRAMME. CRAWFORDSVILLE, Ind., June 25 .- The 35th unual commencement of this institution was closed his evening with the President's levee in the Society halls. The examinations began on Wednesday last and were continued until Saturday. The first public exercise of the commencement proper was the contest between representatives of the Freshmen, Sophomore, and junior lasses in declamation. This is one of the most attructive exercises of the season, two from each class being chosen. The contest was held on Friday evening. and resulted as follows: First prize to R. M. Stevenson of Champaign, 111.; second prize to Albert Baker of In finnapolis, third prize to T. F. O'Farrel of Lafayette Mr. Baker, who is a son of Gov. Baker, the last Execu live of the State, pronounced the speech of Webster, known to disdents as "The Prisoner at the Bar." At 19 o'clock Saskath morning the President delivered the Baccalaureate sermon. The ministers of the city dispensed with their own services that they and their con gregations might be present. The President, the Rev. Joseph F. Tuttle, D. D. Li. D., spoke upon the theme. Physical Science and Christianity," from the text Beware lest any man spoil you through philosophy." It was a defense of the higher Christianity that admits without fear all that science has proven, and still claims for Christianity the place it has ever held. The address to the Senior Class, following the Baccalaureate, was a fine application of the sermon, with earnest advice for their future conduct of life. Sabbath evening, the Rev Dr. Blackborn of Chicago addressed the Society of Retigious inquiry upon the theme "Individuality." This society has long been one of the best fields for students in preparation for the ministry. Under the act of Congress permitting officers of the United States army on reduced pay to be attached to such colleges as were prepared to profit by the arrangement to teach military science and kindred branches, Col. H. B. Carrington came to Wabush. He is a man full of energy and enthusiasm in whatever he undertakes. He has induced the trustees to build a symnasium, which answers all the purposes and needs of a complete Polytechnic Institute. Large densitions were made, mainly through his influence, to make this what it should be. So well did he succeed that he has under his charge an immense brick building, with floor room sufficient for battalion drill. armory, and gymnastic exercises of all kinds. It contains ball aileys, recitation rooms, and the college classes are under regular drill with the rifle and in the field, and in this have made, under his charge, a fine battalion. Such has been the success of this department, that one of the features of Commencement week is the battalion drill. This was given Monday afternoon, at o'clock. The magnificent campus has a fine parade

Monday evening the two literary societies, Lyceum and Calliopean, held their valedictory exercises. Degrees were conferred upon the members of the graduating class at the close. Tuesday morning was occupied with regular society reunions and meeting of Associated Alumni. At this latter meeting the orator for next year was chosen-the Hon. A. W. Woods of Goshen, Ind. Judge John M. Cowan was appointed to present an obituary of Gen. Canby, who was a graduate of the College. H. H. Ristine, esq., of Crawfordsville was elected Alamnus editor of The Wabash Magazine, a periodical Published now for more than 15 years by the students In the afternoon, Class Day exercises occupied the time. In the evening of Tuesday, Judge S. S. Fisher of Cincinnati addressed the literary societies upon "Inventors and Inventions." His long experience in the United | and Credit Mobilier Report, for 50 cents.

ground, with forest trees about it, affording abundan shade to those witnessing the drill, at which many hund

reds were present. The Faculty, Trustees, and friends

the institution, and claim that it is unsurpassed in the

United States, except at the purely inilitary insti-

ilege take the greatest pride in this branch of

States Patent Office had given him a practical acquaint ance with his subject that easily enabled him to present o the students a valuable address.

Wednesday morning opened clear and beautiful. The college is a favorite with the weather. Only once, or at the most twice, has there been a rain on Commenceme day. At 8:30 the band led a fine procession from the colege buildings to Center Church. The following was the order of exercises:

order of exercises:

A Name, Benjamin Crane, Crawfordsville, Ind.; Decision, P. C. Cronkbite, Marshfield, Ind.; The Outlook, I. A. Detchon, Crawfordsville, Ind.; The World is Governed too Much, W. D. Frazer, Warsaw, Ind.; The Mystery of Self, C. A. Greene, Leeds, Wh.; Labor and the Laborer, J. Willis Hiatt, Crawfordsville, Ind.; Every Nation's Enemies, F. W. Iddings, Lexington, Ind.; Every Nation's Enemies, F. W. Iddings, I. Lawof Nature, J. O. Jennings, Mound Stabion, Ill. After the Benediction, C. A. Kanouse Morristown, N. J.: The Lawyer a Preacher, W. H. Kent, Williamsport, Ind.; The Right to Right About, T. R. Marshall, Pierceton, Ind.; Earnestness, Ira McConnell, Musclo, Ind.; Molern Despotism, Harry J. Milligan, Crawsfordsville, Ind.; Milton, E. J. Riee, Frederick, Ill.; Defeated by Victory, W. H. Ripley, Terre Haute, Ind.; Principle—The Power of the Age, F. J. Stanley, Jacksongille, Ill.; Contending Ideas, Leslie D. Thomas, Newport, Ind.; Contending Ideas, Leslie D. Thomas, Newport, Ind.; Concerning Names, S. L. Ward, Toledo, O.; A Lessou, C. D. Whitehead, Columbia Conter, O.; Characteristics of National Progress, George W. Wilson, Crawfordsville, Ind.; Address to Class, President Tattle.

Following the class, the President conferred the de crees in course, and the honorary degree of D. D. upon ne minister, the Rev. Mr. Kendall of this State, follow ing the custom of the College, which has always been chary of conferring honorary degrees. After the Commencement exercises, the Alumni Association gave a

The College is now in better condition than ever. It as complete college buildings, a large library, and per-The College is now in better condition than ever, in has complete college buildings, a large library, and per-haps the finest cabinet in the West. Indeed, it is said to be second to but one in the United States. The report of the Treasurer shows receipts from regular sources of income and donations of over \$100,000 during the year. It has generous friends everywhere.

NOTES ON EDUCATION.

There has been an attempt to put the clases into the public schools of Wilmington, Del., and it has failed.

A chair of Ethics and Christian Evidence has been endowed in Syracuse University. Prof. Coddrugton is its incumbent.

It is stated that the presence of lady stulents in the Missouri State University has always been an advantage, a means of remement, and a promoter

The City Counsellor of Detroit gives the opinion that the Constitution of the State does not permit any language but English to be taught in the schools Therefore German will probably be excluded unless some special provision can be made for it.

The chief trouble in the schools of Conrecticut appears to be what it is in a good many other places-lack of competent teachers. By and by it will probably enter the heads of this generation that the way to get such teachers is to choose people with the specia gift of instruction, and educate them expressly for the

There is talk of using the United States rigate California as a nautical school. There will be an effort made to keep the school as reputable as possible in order that boys graduating from the San Francisc High School and desiring to be fitted for the positions of mate or master of sail or steam vessels, may not be prejudiced against entering it.

A Rochester mother proposes that the weekly holiday of schools be changed from Saturday to Monday, because the urchins' play on Saturday spoils Sunday's church-going in making them so tired. A change would probably bring a complaint from the eachers, on Tuesday, that the play of the day before had tired the pupils too much for their lessons.

The University of Michigan won't obey the nandate of the Legislature to set up a homeopathic professorship in its medical department. The allopathi professors utterly refuse to live in peace with the home opaths if they are brought in, declaring that they will resist even to the destruction of the department. We have nothing to say as to the merits of the two schools, but considering that homeopathy is firmly believed in by a large part of the world, this conduct seems too petty and contemptible to be tolerated.

Dr. James A. Welling, President of Columbian College, states that educational appliances in th City of Washington, worth \$10,000,000, have been offered the College at a nominal cost, including the Smithsonian Institute, with its rare advantages to the student of natural history; the Congressional Library, having on one volumes: the National Observatory, having one of the largest telescopes in the world : the Agricultura nd Horticultural Gardens, the United States Coast Sur vey Department, the Medical Museum, the Corcorar Gallery of Fine Arts, and other institutions.

These are the not untrue assertions of a German observer: In many of our English-American confine themselves entirely to closely with text books. What is in the text book they endeavor to teach, or have the scholars to learn it i ome way, and no more. They sit behind the desk. clasping the text book with both hands so as not "t lose the place," and look neither to the right nor to the left, nor upwards, while the scholars are standing before them reciting, not what they really have studied or tearned, but what they committed to memory or perchance found in some "pony."

An editor discussing "colleges" mentions in instance where "a far-seeing parent proposed to make a great international lawyer of his son, and at Harvard and Heidelberg his whole attention was turned in that direction. He studied law in the best schools in Europe and America, graduated with the highest hon ors, and is now a wealthy and successful machinist, and plays the organ in church every Sunday-the one valu able remainder of his German schooling. The final product of all this legal and linguistic lore is a gentle man, a mechanic, and a musician, active in all the better paths of life, ripe in scholarship, but not at all a

At a recent commencement of a young ladies seminary in Chicago two damsels discussed the some what ambitious subject : "Are we to auticipate the im provement of the newspaper Press in the future !" result was not very flattering if we are to believe this unmary of the discussion :

Affirmative-When the millennium arrived, and nation eased to rise up against nation, and neglected the study of war, reserving its industries for the conversion of the then useless instruments of war into the latest and most approved patterns of agricultural implements, the impulence of the "interviewer" of the local staff would ecome intolerable, and his discharge would be one of the earliest indications of journalistic reformation.

Negative-The Press possessed no inherent power of self-improvement, as evidenced by the high rates of advertising and the publication of Sunday editions. The tone of the Press of to-day was much lower than that of a century ago; and it was to the Bible, and not to the secular Press, that society owed the arrival of the Pilgrin Fathers upon Plymouth Rock. Editors would continue to be very bad men so long as there existed any difference between the religious and the secular Press, and the change for the better could only be accomplished by imbuing them with the love of Christ. Still, when the millennium did arrive, of course there would be some hope for the debased condition of those dangerous crea

WEDNESDAY, July 2-P. M.

There still seems to be magic in the name of Vanderbilt, and the election of the Commodore to the Presidency of the Lake Shore Railway Company in place of his deceased son-in-law, Horace F, Clark, not only sent the Lake Shore stock up to 951, but infused life and spirit into the entire list of active shares. The business at the Stock Exchange to-day has been more animated and of greater volume than for many weary weeks past. At the start prices were about steady, but the market soon improved and some large transactions were reported, Lake Shore and Pacific Mail attracting especial attention. The former advanced from 951 to 961, and the latter from 351 to 38, but yielded in the late dealings to 951 and 361 respectively. The general market advanced 1 to 1 per cent until about 2 o'clock, when the tide turned, and at the close prices were weak. New-York Central advanced from 102; to 103;. The bids for the two million first mortgage 7 per cent bonds of the Company, which were very large in amount, were opened to-day at noon, and the entire amount of the loan will be awarded at a fraction over 105, Erie was about steady on very slight transactions. Rock Island was strong on a moderate business, as were also Hannibal and St. Joseph and St. Paul, The business in investment shares was small, Michigan Central selling at 90% 291, while the remainder of the list was without materal change. Miscellaneous and Express shares were dull. A meeting of the Directors of the Lake Shore and Michigan Southern Railway Company was held at the office of the Union Trust Company to-day, at which Commodore Vanderbilt was chosen a Director in place of Horace F. Clark, deceased, and Wm. H. Vanderbilt in place of W. B. Bishop, resigned, after which the Commodore was chosen President. The Executive Committee was reconstructed as follows: Cornelius Vanderbilt, Wm. H. Vanderbilt, Augustus Schell, and James H. Banker. The infusion of this strong element of N. Y. Central into the Lake Shore is regarded as a practical consolidation of the Central and Lake Shore Companies. The opening, highest, lowest, and closing prices of active stocks

sold to-day were as lonow	25 4

sold to-day were as follows:

William Ward quotes stock privileges as selling for 1 per cent cash benus, on 30 days' time, and 1) to 2 per cent bonus on 60 days, at points varying from the market price of the securities named as follows:

Western Union Tel. ... 14 to 14 below. 5 Gold, 1 for 30 d., 5 for 80.15 to 14 below. 1 The above rates imply first class names

The foreign situation showed no marked change from yesterday, a firmer feeling prevailing in securities at London, and the bank rate being unchanged not withstanding some talk yesterday of an advance. Money at the Stock Exchange rules 1@1 per cent below the bank rate on Government securities, while the rate of discount on three months! bills was reported i per cent below at the close of business. These facts coupled with the influences heretofore mentioned had a depressing effect on the gold market. After declining to 155, the price rose to 1154, and still later reacted to 1154. On gold loans the rates were 21, 3, 31, 4, 5, and 2 per cent for carrying. The Assistant Treasurer paid out \$222,000 in currency and \$720,000 in coin interest on the public debt, redeeming \$42,000 in called bonds. The day's business at the Gold Exchange Bank was as follows: Gold cleared, \$46,969,000; gold balances, \$3,059,717; and currency balances, \$2,791,680. The

quotations for gold were as follows: 10:00 .115 | 11:30 .115 | 1:00 .115 | 2:30 . 115 | 10:30 .115 | 12:00 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | 1:30 .115 | The day's business at the U. S. Sub-Treasury was

as follows:

Totals......\$311.140,300 \$337,153,400 Foreign exchange was quiet, and rates remain nominally as follows: Sirty days. Three days.

Prime bankers' sterling bills 6.15 @5.10; 40; @ 40; 97; @ 97; 41; @ 41; 97; @ 97; 72; @ 73;

The money market was exceedingly easy, and call oans ranged from 4 to 5 per cent. The market presents no new features, and low rates will probably be the rule for a long time to come. In discounts a moderate business was driven on the basis of 6; @7; per cent for prime business notes.

The Government bond market was quiet and prices were without much change. A good demand prevailed and the offerings as usual were insufficient to meet it. 1862s and 1864s sold at 1161, 1865s, old. advancing to 118; 1867s brought 117; New Fives, 1142, and Currency Sixes 114). Fisk & Hatch report as follows at 3 p. m. :

Railroad bonds were moderately active. The Pacific mortgages were higher, particularly in Union Firsts, which sold up to 86. Many of the issues were quoted ex-interest. The quotations were as follows:

The Philadelphia stock market is steady; Pennsylvania Sixes, 108; Philadelphia and Erie Railroad, 25: Reading Railroad, 55;: Pennsylvania Railroad, 544. Gold, 1154.

BANKING AND FINANCIAL.

Banking-House of Fisk & Haron,
No. 5 Nassau-str. New-York, July 1, 1873. {
We recommend to our friends and customers for investment of surplus capital, or in exchange for Government bonds, THE CHESAPEAKE AND OHIO SEVEN PER CENT

GOLD BONDS; Principal and interest payable in gold in New-York City; interest payable Jan. Land July 1; bonds of \$1,000 each coupon or registered. Price 90 and accrued interest.

THE CHESAPEARE AND OHIO RAILROAD, A GREAT EAST AND WEST TRUNK LINE, 420 miles in length. extending from Atlantic tide-water at Richmond to Huntington, the most favorable point of railroad connection with the Ohio River, is completed, and doing a large, profitable, and rapidly increasing Its TRAFFIC in the transportation of Agricultural

Products and general merchandise between the West and the Eastern and South Atlantic States, and in the development of the IMMENSE IRON, COAL, AND

TIMBER RESOURCES OF THE ALLEGHANIES AND THE GREAT KANAWHA VALLEY, is growing as rapidly as it can be organized.

Irs Passenger Travet between the East, and West, and South-West, and to the White Sulphur and other celebrated medicinal springs on its routs, is large and rapidly increasing.

Its Earnings during the current year will be much larger than has heretofore been anticipated,

and will largely increase from year to year. NONE OF THE OTHER GREAT EAST AND WEST TRUNK LINES and Coal and Iron thoroughfares, whose revenues are now so enormous, commenced their business with anything like the traffic which has greeted the opening of the Chesapeake and Ohto, and its growth promises to equal in magnitude and excel in rapidity that of the most successful of its predecessors.

These facts, together with the thorough construct tion and substantial character of the road itself, and the great value of the company's property and icanchises, enable us to recommend their Securities with the utmost confidence.

Pamphlets, containing full information concerning the road and the country it traverses, will be furnished upon application.

We continue to deal in Government Securities, CENTRAL PACIFIC, WESTERN PACIFIC, and CHESA PEAKE AND OHIO SIX PER-CENT BONDS, buy and soil Stocks and Bonds at the Stock Exchange on commission, for eash, make Collections, receive Deposits, on which we allow interest at the rate of Four per eent, and do a general banking business.
